5.2 Subcontracting
 Give details on subcontracted action tasks (if any) and explain the reasons why (as opposed to direct implementation by the participants).
Subcontracting — Subcontracting means the implementation of action tasks, i.e. specific tasks which are part of the action and are described in Annex 1.
Note: Subcontracting concerns the outsourcing of a part of the action to a party outside the Consortium. It is not simply about purchasing goods or services from outside the Consortium. Sub-contracting should therefore be exceptional.
 Include only subcontracts that comply with the rules (i.e. best value for money and no conflict of interest; coordinator tasks can normally not be subcontracted).

Work Package No	Subcontract No	Subcontract Name	Description	Estimated
	(task number and beneficiary who subcontracts)	(subcontracted action tasks)	(Describe scope of subcontract)

Other issues:
 If subcontracting for the entire project goes beyond 30% of the total eligible costs, give specific reasons.
